

# 4Sight®

See it from every angle

## A-Scan, B-Scan, UBM and Pachymeter in one, easy to use platform

For over 30 years Accutome has built a reputation for high quality, reliable and reasonably priced ophthalmic diagnostic equipment. The addition of the 4Sight® is no exception.

We understand the demands on today's busy clinics and designed the 4Sight® to meet those needs:

### High Value

- Single solution for all ophthalmic ultrasound imaging at an affordable price
- Modular platform allows for "mix and match" options with a combination specific to your needs
- High quality with industry leading warranty and service programs
- Live help and dependable support for the life of the product

### Accuracy

- Proprietary signal processing
- Industry leading clinical accuracy
- Unsurpassed image quality

### Efficiency

- Single point of use technology for all ophthalmic diagnostic imaging
- Intuitive user interface for a rapid and smooth learning curve
- Easy data transfer between modalities and higher patient throughput
- DICOM<sup>SM</sup> Worklist compatible

Please contact your Accutome sales representative for additional information.
