

AUTOMATED

REFRACTION SOLUTIONS

Increase Your Efficiency & Profitability

- » Ultimate flexibility with unparalleled options
- » Save time and see more patients
- » Maximize staff resources
- » High tech solutions to impress your patients and increase referrals

REFRACTION SOLUTIONS

REFRACTION time by an average of 50% with MARCO AUTOMATED SYSTEMS*

TRS-6100 Automated Refraction System

The latest total refractive system with full automation and superior accuracy

FEATURES:

- » Fast, accurate refraction
- » Streamlined data flow
- » Intuitive, ergonomic keyboard for simple, one-handed operation
- » Programmable monocular fogging better suppresses accommodation and allows more realistic refractions with both eyes open
- » Integrates with most EMR/EHR systems
- » Instantly compares patients' old and new prescriptions

TS-610 Tabletop Refractor & Chart System

Innovative, compact refraction system with integrated chart and refractor

INCLUDES ALL TRS-6100 FEATURES PLUS:

- » Advanced, compact 2' x 2' footprint for efficient workflow
- » Measurements can be taken from either side for seated or standing patients
- » Unique system simulates a 20 foot lane
- » Includes all charts needed for both near and distance vision testing

ADD THE FULLY ASSISTED REFRACTION SYSTEM (FARS):

- » Transforms your workflow, increasing practice efficiency
- » Patients take the test independently with joystick and voice-guided instructions
- » Set-up and training is effortless even an inexperienced technician can get an accurate refraction
- » A single staff member can cover multiple devices or multi-task

EPIC-6100 Refraction Workstation

All components of the refraction process combined for peak efficiency

INCLUDES ALL TRS-6100 FEATURES PLUS:

- » 5' x 6' refractive workstation with seamless data connectivity
- » Multiple configurations for ultimate customization
- » Optional customizable accessories for even more versatility
- » Optimal design for delegation and increasing throughput without bottlenecking the exam room
- » 13.5 JACHAPO credit hours through our Marco training institute

Infinity Software: REFRACT FROM ANYWHERE

Add Infinity software to your Marco automated refractor for maximum versatility. Refract from another room or a remote location such as another office or your home.

- Operate your Marco digital refractor from the included tablet or any web browser
- · Web cameras allow seamless audio and video interaction between doctor and patient
- · Plus, no subscription fees for the Infinity PC Control Panel: You own it!

Infinity is compatible with all 5100/6100/EPIC Marco refraction systems

COMPLIMENTARY

Workflow Consultations for Maximum Efficiency

Starting a new buildout or remodel? Marco offers complimentary workflow consultations to help you plan the most efficient use of space for your office.
