Your guided view to precise IOP measurements.

Introducing the all-new Reichert® **Tono-Vera® Tonometer** featuring the advanced, patent-pending **ActiView™ Positioning System**, that quickly guides you to the apex of the cornea, giving you confidence in your intraocular pressure (IOP) readings. Tono-Vera automatically measures when aligned, providing more objective and repeatable results.

Tono-Vera utilizes gentle rebound tonometry technology, eliminating the need for topical anesthetic. Designed with the eye care professional in mind, the innovative Tono-Vera System includes a base that efficiently stores and dispenses **Ocu-Dot® Tonometer Probes**.

Reichert® is technology, tradition, and trust.

For over 75 years, Reichert has paved the way for continuous advancement in tonometry and glaucoma diagnostics. With the introduction of Tono-Vera, Reichert now offers the most comprehensive line of tonometry solutions.

Tono-Vera Tonometer is brought to you by the people who are passionate about eye care.

A more objective measurement with ActiView™ Positioning System.

The Tono-Vera ActiView Positioning System features a full color view of the eye combined with intuitive, interactive alignment prompts to guide the user precisely to the apex of the cornea. When proper alignment is achieved Tono-Vera automatically measures, providing a result in as few as three measurements. Intuitive color-coded rings indicate the reliability of the reading.

All the important information, always on display.

- 1 FlexiSoft™ Forehead Rest
- 2 Bluetooth® Connectivity
- 3 Battery Status
- 4 Probe Angle Indicator
- 5 ActiView Target
- 6 Number of Measurements
- 7 Measurement Mode
- 8 OD/OS IOP Measurements
- 9 Select OD/OS Buttons
- 10 Multi-Function Select Button

Tono-Vera®, innovative and thoughtfully designed.

- Available in two models – Rechargeable or AA Battery. Rechargeable Model means fewer batteries in landfills and a device that is always ready to use. AA Battery Model goes anywhere and allows for a quick and easy battery change with no additional tools required. Rechargeable and AA Battery Packs are interchangeable, providing ultimate flexibility.
- Lightweight, ergonomic, and calibration-free.
- Included multi-purpose Tono-Vera Base docks and charges* your device while also conveniently storing and dispensing Ocu-Dot Tonometer Probes.
- Innovative FlexiSoft™ Forehead Rest has been designed for easy distance control and patient comfort.
- Bluetooth enabled, allowing for software updates and Electronic Health Record connectivity.
- Ready for the road with the durable and lightweight protective Carry Case.

Ocu-Dot® Tonometer Probes

Specially designed for Tono-Vera Tonometers, Ocu-Dot Tonometer Probes are single-use, individually packaged for fast and easy loading, and come in boxes of 100 count.

Specifications

Tono-Vera Tonometer Starter Kit - AA Battery

Tono-Vera Tonometer Starter Kit - Rechargeable

Ocu-Dot Tonometer Probes - 100 Count

Dimensions: 21.25 x 6.6 x 3.0 cm (8.4 x 2.6 x 1.2 in)

Display Dimensions: 2.8 x 2.8 cm (1.1 x 1.1 in)

Weight (without batteries): 120.3 g (4.2 oz)

Measurement Range: 5-60 mmHg (Display Range: 1-99 mmHg)

Accuracy: ± 1.0 mmHg (5-20 mmHg), ± 2.0 mmHg (21-60 mmHg)

Measurement Distance Range: 6 mm (± 1.5 mm)

Power Source: Lithium-ion or Four AA Batteries

Languages: English, German, French, Spanish, Italian, Portuguese

Warranty: Two Years

* Rechargeable model only.
